Dr. Robert A. Kehoe
Kettering Laboratory
Eden & Bethesda Ave.
Cincinnati 29, Ohio

Dear Dr. Kehoe:

Some of the legal aspects of our lead poisoning case are now squarely before Judge Weber. A great part of our legal success is in convincing the Judge that there had been sufficient threat and notoriety in connection with lead poisoning so as to be foreseeable by a landlord.

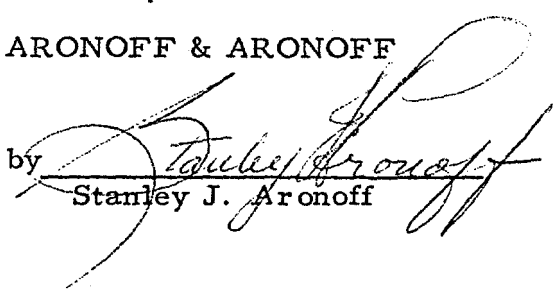

April, 1959 is our crucial time. If you have a record of lead poisoning cases in Cincinnati prior to April, 1959, we would greatly appreciate same. Likewise, if there was publicity before April, 1959, we would appreciate same.

Finally, at your discretion, if there is anything else that you feel would be of service to our legal argument, would you please forward it to us.

Very sincerely,

ARONOFF & ARONOFF
