Crystal,

This is Craig Thurmond I am the Mayor of Broken Arrow, OK, I am also on the Board of the NLC. Administrator Pruitt is supposed to speak at the Luncheon tomorrow at the NLC Conference in DC. I have been asked to introduce him to a small group before the Luncheon . The group will consist of the President, First Vice President and Second Vice President of the NLC and the Chairman and two Vice Chairmans of their Energy and Environment Committee and me. I will be the only Republican in the room. We are suppose to have a meeting before to discuss what they want to talk about, all I know right now is Climate Change. The NLC's Environmental Committee believe that we need more environmental regulations.

I did not want Scott to be caught off guard when he got here. I told them that he is a very principled man and they would not change his views, but he would listen to them. If I get a chance I will sent him the list of the three items they want to discuss.
