March 22, 1978

Mr. C. Welshman
Roger Corp.
Rogers, Ct. 06263

Dear Carl:

I discussed further with our production and technical groups your report of damaged units for our shipment of asbestos fiber grade PAPERBESTOS #5, shipped March 15th, Holmes van 0102. We will strap the last two units of your April shipment, at no charge, in an effort to overcome this problem. I have also reiterated the importance of sufficient gluing for this and future shipments. I will advise you the van number for this trail load when shipped.

I have also conveyed to our shipping group your stipulation that we no longer use canvas covered vans for shipments to your Roger facility. I trust this action will prove satisfactory.

Very truly yours,

Roger Hattersley
Special Representative
Asbestos Fiber Sales
