

DONALD A. KOHR
PRESIDENT

EDWIN A. DANIELS
VICE-PRESIDENT AND SECRETARY

THE LOWE BROTHERS COMPANY

DAYTON F2, OHIO, U.S.A.

MANUFACTURERS OF PAINTS, VARNISHES AND LACQUERS

July 26, 1946.

Dr. Robert A. Kehoe,
Kettering Laboratory of Applied Physiology,
University of Cincinnati,
Cincinnati 19, Ohio.

Dear Doctor Kehoe:-

This will acknowledge receipt of your letter of the 23rd together with the report included with it, and also the medical report that was brought to Dayton yesterday by Dr. Ryder and Mr. Cholak.

All this information has been gone over carefully by our people here and discussed with Dr. Ryder and Mr. Cholak when they were in our plant yesterday. Unfortunately I was not present at this discussion because it was necessary for me to be out of the city. However I understand we made it clear to your representatives that we expect to continue investigations along the lines they have suggested, and in accordance with the statements of your letter of the 23rd.

Incidentally I can report that interviews have already been had with [REDACTED] and [REDACTED] the two men whose X-rays seemed to show a lung condition that should have further attention. Both men expressed their appreciation of having this information and promised to consult with their own physicians.

Yours very truly,

W. A. Kohr
