BATON ROUGE NORTH WORKS
AMBIENT AIR & PERSONNEL MONITORING - VCL MONOMER
JULY - 1976

I. GENERAL

The purpose of the tests was to determine TWA's for persons working in the VCM Complex.

II. CONCLUSION

A. Personnel Monitoring

1. Thirteen employees were monitored in July.

<u>Range</u>	<u>Employees</u>	<u>Percent</u>
0 to 0.5 ppm VCI	13	100%
0.51 to 1.0 ppm VCI	0	0
1.0 and over ppm VCI	0	0

2. All employees tested in July were below the 0.5 ppm action level.
3. See attached data.

B. VCM Area Monitoring

1. Both area monitors operated satisfactorily during the month of July.
All alarm systems are operative. Standardization and meter and instrument surveillance continues on a routine basis.
2. G.O. has been approved by Morristown Engineering for computerizing all 20 sample points of the area monitoring system in order to get a daily print-out of results.
