May 2, 1989

Mr. Lawrence Madeksho
Gulfway Plaza Bldg.
8320 Gulf Freeway
Houston, TX 77087

Dear Mr. Madeksho:

I understand that you have brought to light the opinion of Dr. Kenneth Smith, then Medical Director of Johns-Manville, that intermittent exposure could result in severe asbestosis within a few months and that filter materials widely used for food filtration contained asbestos. I believe that this was in a deposition given by Mr. Robert L. Bockstahler.

Would it be possible to obtain a copy of Mr. Bockstahler's deposition, particularly in relation to the scientific matters mentioned above? This would be greatly appreciated!

With all best wishes and many thanks for the help you have been given us.

Sincerely yours,

Irving J. Selikoff, M.D.
Professor Emeritus

Dear Mr. Madeksho:

Thanks very much for sending me the Bockstahler deposition.

It touched on matters that were not previously known to me,
and was very valuable.

Sincerely yours,

Irving J. Selikoff, M.D.
