Subject: Revised Minutes from July 26 Oversight Committee meeting

To all,

Patrick provided me with comments on the draft I sent out earlier, which made me realize that the version I sent was incomplete. I had several other points that were not included in what was sent out, including a list of action items. The version on the Consortium web site is now up-to-date, as is the version that is attached. I will also be posting to the web site the draft "approval form" that Lorraine developed during the meeting; it is taking a little longer to have that finalized and I will send out an e-mail notice when it is posted. As a recap, access to the web page is as follows:
