

Monsanto

FROM, NAME & LOCATION: St. Louis

DATE: January 26, 1967

REFERENCE: AROCLOR 1232

REFERENCE NO. 1

TO: FILE

I talked today with Mr. John Foltin, of the Mist Company in Queens, (Telephone No. 278-1867, Area Code 212). He stated a child swallowed 1/4 to 1/2 ounce of Aroclor 1232 which was used for miniature automobile lubrication. They had no labels on the bottle.

The child was hospitalized and I told them to have her stomach washed out with olive oil and to watch for liver damage. He is to call me in three or four days to tell me how the child is getting along.
