Dear Mr. Watt:

Thank you for your recent telephone call and for your continued interest in Nilfisk industrial vacuum cleaners for HEPA filtration of asbestos dust.

I am pleased to enclose copies of literature and promotional material on models GA 71 and GA 73. Both of these machines can be equipped with exhaust filters (HEPA) and provide dust-free disposal of collected fines.

You will undoubtedly find the reprint from Asbestos Magazine of some interest as well.

Other satisfied friction material manufacturers include Delco-Moraine, Raybestos Manhattan, Bendix Corp., Abex, Worldbestos, and Wheeling Brake Block.

Sincerely,

NILFISK OF AMERICA, INC.
