TRAINING MEETING ATTENDANCE RECORD

NAME OR SUBJECT OF COURSE OR CLASS Protective Clothing / Alertness

DATE 11/1/76 INSTRUCTOR(S) B. C. Pettus A. Keene

LOCATION Vinyl Dryer Control Room NUMBER OF HOURS .6

DESCRIBE WHAT HAPPENED (Major points covered, what was demonstrated, what was practiced, what training aids were used, etc.) Attach separate sheet if necessary.

Discussed the protection of hard hats, breathing equipment and clothing. Explained to the men that certain jobs require different kinds of clothing depending upon the safety factor involved.

our second discussion was about being alert. Points brought out were; to have a proper attitude when undertaking a given job; learn about the job and its hazards; evaluate every job to be accomplished; respect the hazards that exist with every job; think about safety and proper procedures before starting on a job, and then doing it in a safe manner.

A

DATE 11-9-76

LOCATION Rearin Land Farm.

DESCRIBE WHAT HAPPENED (Major points covered, what was demonstrated, what was practiced, what training aids were used, etc.) Attach separate sheet if necessary.

We went through steps to safe light and put vaporizers in service. Covered emergency shut down procedures in case of fire. Emphasized the fact that under no circumstances would one man ever try to light vaporizer by himself.

Frank G. Monty

I gave a talk on why aisles, passageways, walkways, stairways and stair landings must be kept clean & clear to prevent accidents. I also used our waste house storage areas as an example now as compared to what our storage areas were 5 years ago. Then I talked about how important it was to keep stairs, up to large reactors & recovery systems clear of pipes & hoses. I brought out where we stood on our shift safety record. No Doctor Cases, No first aid cases year to date.
