MINUTES
COMMERCIAL-MECHANICAL
POWER/PROCESS COMMITTEE MEETING

Las Vegas, Nev.

29 March 1977

The meeting was called to order at 1:00 P.M. with the following
in attendance:

J.P.Kern, Chairman
E.C.Cusick, Jr., Chairman

A.D.Booth
P.T.Buche
R.H.Cipolla
P.Colaiacovo
R.Curt
D.C.Glosser
F.Govan
L.Hall
M.Hauserman
R.S.Hite

W.T.Irwin
J.Law
G.Mitchell
T.Nicholson
W.W.Pitkin
R.Van Bendegen
J.R.Vyverberg
D.K.Wenrick
L.R.White
T.J.Winter

J.M.Barnhart

1. The minutes of the meeting of 12,13 January 1977 were approved.
2. F.Govan and R.Curt reported on the status of the ERDA contract to evaluate in situ performance of high temperature pipe insulation. York Research will send progress reports to R.S.Hite, W.T.Irwin and J.M.Barnhart.

3. The ETI Workshops were discussed.
 - a. The Communications Committee is to develop a brochure for contractor use.
 - b. The NICA Technical brochure on heat loss calculations was discussed.
 - c. It was agreed that input data should be included on the ETI printout.
 - d. It was agreed that the "R-ECON MANUAL" and "R-ECON REPEATS" would not be retained.
 - e. The thickness tables based on the ETI program have not been completed.
4. P.Colaiacovo reported:
 - a. A draft of the ETI brochure will be presented to the committee for comment.
 - b. Press conferences on the ETI are planned; one in New York City and one in Chicago.
 - c. An ad program will follow the press conferences.
 - d. A press release has been sent out regarding upgrading of thermal insulation.
 - e. AMA has accepted part of the ETI presentation for use in the FEA seminars.
 - f. A letter to AGA has been drafted relative to using the ETI program.
 - g. J.P.Kern's presentation to NICA on 30 March was discussed.
 - h. The FEA film entitled "Industrial Insulation" will be shown at the next meeting. It can be purchased from:

National Audiovisual Center
General Services Administration
National Archives & Records
Washington, D.C. 20409

- i. A program will be developed for the
MICA Regional Meeting on 18 May 1977.
- j. J.E.Kern, D.C.Glosser, L.Hall, and
T.Winter will present the ETI Workshop
in Toronto, Canada, 12 May 1977.

5. S.K.Heard mailed in the Government liaison committee report
as follows:

The Government Relations Committee of TIMA held
a meeting on Friday, March 18, 1977 with the
following members and guest in attendance:

L.H.Mills, CSG, Chairman
C.P.Skelly, J-M
S.K.Heard, Jr., OCF
C.W.Almand, USG
Gerald T. Fenton, President, Gerald T. Fenton, Inc.
(Guest - representing insulation contractors)

The meeting was called to prepare and submit comments
on proposed Naval Facilities Engineering Command
(Western Div.) Guide Specification TS-15181, "Insulation
of Mechanical Systems." The draft was sent out to
industry on 31 Dec. 1976. (We received copy February
1977)

After two hours of collective examination and review
of the draft, L.H.Mills volunteered to go through
the spec and make comments for the committee because
of numerous errors and needed changes. He also agreed
to notify NAVFAC and advise them that TIMA comments
would be forthcoming, but would obviously be late.

The committee was shown copy of the attached letter
of March 2, 1977 to S.K.Heard to submit to TIMA
Commercial/Mechanical and Power/Process Committee
meetings - March 29, 1977 - Las Vegas.

The proposed draft of MIL-I-22344C, "Insulation, Pipe,
Thermal, Fibrous Glass," was discussed and will be
presented to TIMA for review and acceptance. If
approved, it will be presented to NAVSEC for their
acceptance.

The committee has not received the ERI table of thicknesses for presentation to Corps of Engineers and Navy for their guide spec on mechanical systems.

The Government Relations Committee requests the Commercial/Mechanical and Power/Process Committees to consider Washington, D.C. as the location for their next meeting.

6. The next meeting will be held in Washington, D.C., 7 June 1977.
C.P. Skelly will make arrangements.

ADJOURNMENT

There being no further business, the meeting was adjourned at 4:00 P.M.

J.M. Barnhart

Executive Director

The committee has not received the EPI table of thicknesses for presentation to Corps of Engineers and Navy for their guide spec on mechanical systems.

The Government Relations Committee requests the Commercial/Mechanical and Power/Process Committees to consider Washington, D.C. as the location for their next meeting.

6. The next meeting will be held in Washington, D.C., 7 June 1977.
C.P. Skelly will make arrangements.

ADJOURNMENT

There being no further business, the meeting was adjourned at 4:00 P.M.

J.M. Barnhart

Re: TIMA/Commercial, Mechanical
Power and Process

Dear San:

Perhaps you may want to advise TIMA Technical Committee of subject at their next meeting in Las Vegas about Syska and Hennessy studies on energy conservation for U. S. Navy.

Their NYC office has prepared two volumes on the subject which are entitled, "Final Analysis and Recommendations Upgrading Mechanical Guide Specifications and Referenced Equipment Specifications for Better Energy Utilization." Contract Number is N00025-75-C-0003. In the area of thermal insulation, it contains a good comparison of ASHRAE 90-75, TIMA and Federal Construction Guide Specification recommended thicknesses with present Navy thicknesses.

Sincerely,

R. C. Manahan
Manager, Marketing Services
Corporate Marketing
