

QUANTITY	DESCRIPTION
	Item (1) shall be produced, tested, inspected, and delivered in accordance with MIL-2-24244 ships titled: "Insulation Materials, General, with Specific Corrosion and Saltcrystallization Requirements" dated August 22, 1955. MIL-2-24244 specifies the following paragraphs in MIL-2-24244: Para. 4.2.2, Sampling, and para. 4.2.4, Specimen Preparation, which specify the number of samples and specimens required for chemical analyses. MIL requires that the provisions set forth in these paragraphs be complied with without deviation. Item (1) shall be Form 1, cloth, grade C-3, Style 5, Glass-Asbestos No. 3 Construction in accordance with Federal Specification SS-C-4668 titled: "Cloth Thread and Tape; Asbestos". The effective date for all specification standards, publications, etc. invoked by this purchase specification shall be June 1, 1952 except where otherwise noted. 2. Quality Assurance Provisions The manufacturer/vendor shall prepare and submit to the purchaser three (3) copies of the following document and the document shall be signed by the official of the manufacturer/vendor's company. The MIL-2-24244 purchase order number and purchase order item number must appear on each document. The Certificates are to be sent, under separate cover, concurrently with or shall precede the applicable shipment of material and are to be sent directly to HQS&P. 1. Certificate of Compliance stating that the material furnished is in accordance with para. 5.3.2 of MIL-2-24244 and this purchase order. 2. Certificate test reports in accordance

QUANTITY	DESCRIPTION
	with para. 4.2.3 of MIL-I-24244 (sh) B. "Mercury Contamination -During the manufacturing processes, tests, and inspections, the material furnished shall not have come in direct contact with mercury or any of its compounds nor with any mercury containing devices employing a single boundary of containment." 3. Shipment and Packaging A. Packing and shipment shall be such that material is not damaged and that tags on each item shall remain intact, in place and legible for short time storage and handling after receipt. B. Each shipping container shall be substantially tagged with its item and purchase order number. C. Material is for domestic shipment and immediate use. 4. The end use for which this material is intended must be passed on to all subcontractors. <u>MANUFACTURE AUTHORIZATION</u> Release for manufacture is granted upon the placement of this purchase order, provided material is in strict accordance with this purchase specification. All departures from this purchase specification shall be specifically and clearly invited to our attention for evaluation prior to actual manufacture. <u>CLASS A MANDATORY INSPECTION</u> Government inspection of items furnished on this purchase order is required prior to shipment from your plant. Please notify the Government Representative who services your plant so that plans for such inspection can be made, and provide such assistance in the above inspection as he may request. The Supervisor of Shipbuilding, NA has forwarded a copy of this order to your local Government Representative.

DESCRIPTION

TEST

The Chemical Tests of MTH-100-1, Part 1, shall be performed in the presence of the Government Inspector and shall meet the requirements herein.

SHIPMENT OF MTH-100-1, Part 1, to the Government Inspector for testing.

This is to certify that the tests of February 10, 1944, with MTH-100-1, Part 1, were successful.

TEST OF MTH-100-1

Date Requested: 1/10/44
 Submitted: 1/10/44

Date of Test: 1/10/44
 2-20-44

General and Special Instructions: 1-10-44
 5015-9-40 MTH-100-1, Part 1

This material is to be tested in the presence of the Government Inspector and shall meet the requirements herein. The tests shall be performed in the presence of the Government Inspector and shall meet the requirements herein. The tests shall be performed in the presence of the Government Inspector and shall meet the requirements herein.
