Subject: Re: Request meeting with Mr. Pruitt: Regarding the environmental concerns from the Chesapeake Bay Population Stability Society

Hello Sydney,

My apologies for being persistent with my request to reach Mr. Pruitt regarding The Chesapeake Bay Population Stability Society (CBPSS) concerns over the Bays Protection. Understanding that Mr. Pruitt's schedule is very compressed, perhaps there may be a need for another approach. If you are aware of a day that Mr. Pruitt will be in his DC office, I would be happy to spend the day waiting until there is an opening and keep my interactions with him to a minimum, no more than 15 minutes. This way no specific time would be necessary to schedule an official meeting. I hope this might make things easier for you both.

Thanks,

Paul Clark
Environmental Scientist
The Chesapeake Bay Population Stability Society (CBPSS)

Subject: Automatic reply: Request meeting with Mr. Pruitt: Regarding the environmental concerns of population growth driven by mass immigration.

I will be out of the office beginning at 11:30AM on Friday, April 28th and returning Monday, May 1st at 8:00AM. If you need immediate assistance please contact Michelle Hale at hale.michelle@epa.gov.

Have a great weekend!
