DOCUMENT DESCRIPTION: Memo RE Asbestos & Liquidating Inventory

KANSAS CITY, KANSAS
July 20, 1979

BULLETIN TO ALL INDUSTRIAL SALESMEN AND MANAGERS

From: Bob Mann

SUBJECT: ASBESTOS

We have finally heard from CareyCanadian after we advised them that we would withdraw as a stocking distributor of asbestos products.

They have told us that any T-H branch that has not stocked Asbestos they would continue to allow third party privileges, but to most of the locations that were stocking branches they would attempt to find other distributors, and if successful would support them on the third party arrangement which we would lose. They are in process of locating distributors and will handle each case on an individual basis so keep in touch as you see fit.

In the meantime, we trust you are liquidating your inventories and looking at any other branch location to move their stock until we have a zero balance at all current T-H stocking branches.

Cordially

Bob
