PLUMBUM* with MUSCLE

Work your muscles—and they get stronger.

The same thing is true of Tellurium Lead, a new type of metallic lead manufactured by National Lead Company for use in industries processing with corrosive chemicals. When bent, twisted, hammered or stretched, Tellurium Lead becomes tougher and stronger at the point of working. As metal experts say, it "work hardens". In sheet and pipe form, Tellurium Lead has helped in many plants to reduce chemical equipment failures, thereby lowering maintenance costs.

Tellurium Lead is just one result of National Lead Company's constant effort to furnish better lead and alloy products to meet the many fields it covers.

In addition to sheet, pipe and other fabricated shapes, there is lead.

National Lead Company manufactures lead alloys building habit, and it, and many battery and casting metals. It makes and sells lead pigments . . . for example, the famous Dutch Boy white lead used to paint and decorate thousands of American homes, and which they all had performed by engineers everywhere for the protection of metal surfaces.

National Lead Company also manufactures old, dyes and colors which stand out in paint material line. Under the trade name, Lithum, it markets iron, or pigments used by paint, paper, rubber and other manufacturers. Its products are for use in both the paint and oil well-drilling fields. Also among its products are barium chloride, barium sulfate, various rare and heavy metal salts, and as reagents for the recovery of waste industrial materials.

Year-End Review Edition

THE WALL STREET JOURNAL, THURSDAY, JANUARY 2, 1947

• PORTRAIT OF A PROMISE •

To some, the Dutch Boy Painter printed on a package is merely a pleasing picture—

To others, this symbol is simply the sign of the sponsor—

But in its deeper meaning and in the

truer sense, the Dutch Boy trademark is more than a picture, more than the mark of the maker. It is a guarantee of quality, a pledge of value, a promise of honest performance.

WHY WHITE LEAD HELPS PAINT "WORK" EASIER

Let's admit it: painting with a brush is not a simple task. It's a job that requires skill and patience. But when you use White Lead, the job becomes much easier. White Lead is a soft, creamy substance that spreads easily over the surface you're painting. It doesn't dry too fast, so you have time to work it into the surface. And it's so smooth that it fills in the pores of the material, making the paint job more durable.

DUTCH BOY ^{Best} ^{Carbonate} WHITE LEADS

White Lead is the best paint for all purposes. It's the only paint that's so smooth and so easy to work with. It's the only paint that's so durable and so long-lasting. It's the only paint that's so cheap and so easy to get. It's the only paint that's so good for you and so good for your pocket.

White Lead is the best paint for all purposes. It's the only paint that's so smooth and so easy to work with. It's the only paint that's so durable and so long-lasting. It's the only paint that's so cheap and so easy to get. It's the only paint that's so good for you and so good for your pocket.

HOW WHITE IS WHITE LEAD?

It is not just a plain white, but a white that is as bright as the sun, and that is why it is called 'white lead'.

The great test for the whiteness of a paint is to see how it looks when it is dry. The paint that is white when it is dry is the best.

It is not just a plain white, but a white that is as bright as the sun, and that is why it is called 'white lead'.

No other paint can match the whiteness of white lead.

White lead is a white that is as bright as the sun, and that is why it is called 'white lead'.

DUTCH BOY ^{Basic} WHITE LEADS

To the paint manufacturer with a material shortage problem

National Lead offers the experience and wisdom of its research and technical departments to assist in reformulating.

We can define such a case as a shortage of certain paint materials, paint manufacturers are being obliged to reformulate some of their paints.

As a result of 25 years of experience in developing paint formulas, National Lead has both the desire and the

ability to help you solve this problem. We will share with you our knowledge of paint-making knowledge and experience.

The full advantage of these resources is being put to work in all paint materials reformulations. We are ready to assist you in your work with us. All you need is a sample, for formulation and direct purchase.

Paste White Lead
has been -

Triple-Improved

BETTER
RIDING!

IMPROVED
BOOTS!

WATER
WHITE!

Thanks to National Lead's constant research... a trio of improvements for the painter who "scores his own!"

1. Water White! You'll find your old friend, Dutch Boy, is keeping you better and better protected.

2. Improved Boots! Dutch Boy's new rubber boots are made of a special material that is both soft and strong, and they are also waterproof.

3. Better Riding! Dutch Boy's new riding boots are made of a special material that is both soft and strong, and they are also waterproof.

COME IN PAIRS!

[illegible]

"I have been thinking of you very much lately,
 and wondering how you are getting on.
 I hope you are well and happy.
 I am still in the same old place,
 but I am doing my best to make
 the most of it. I am still
 as busy as ever, but I am
 trying to find time to write
 to my friends. I am still
 as fond of you as ever, and
 I hope you are too. I am
 still your affectionate friend,
 and I hope you are still
 my dear friend."

SUNSHINE

Q. What is the name of the person who is the author of the book "The History of the United States of America"?

[illegible][illegible]

The first thing I saw when I stepped
 out of the car was a man in a
 uniform, looking at me with a
 stern expression. He was
 holding a clipboard and a pen.
 I felt a little nervous, but I
 tried to keep my composure.
 He asked me for my name and
 address, and I gave him the
 information he needed. He then
 led me to a small room where
 I had to wait for a few minutes.
 The room was simple, with a
 table and a chair. I sat down
 and waited, feeling a bit
 awkward. Finally, the man
 returned, and we went to the
 next step in the process.

Regular Dutch Boy White Lead Triple-Improved

Thanks to National Lead's Constant Research
...a better Dutch Boy Paste White Lead than ever before!

There's more than a few paint containers here, past and present. Dutch Boy Paste White Lead has been improved! Triple-Improved by National Lead research in our constant effort to bring you better and better paint products to sell.

Not content to rest on his laurels, the Dutch Boy has found a way to make his white lead even better.

First, it has been made even a *haze* clear. That means it's so clear

it shows every stain, blemish, hole, pin, nail, and Dutch Boy has improved his. Today it really makes a house's paint a better paint.

Third, Dutch Boy has improved his coverage. It not only gives a more solid-looking job but actually covers more surface.

So thanks to our color research, Dutch Boy paste lead is triple improved! And a few more reasons that it is easy to

mix, easy to spread, long-lasting and smooth to finish. You'll know why you're getting so fine a product in any one of these ways.

...My famous
Presto White Lead
has been --

Triple-Improved

WHITER
WHITER!

IMPROVED
BODY!

BETTER
HIDING!

Thanks to National Lead's constant research...a trio of
improvements for the paint buyer who prefers to "mix his own"!

Yes! Your customers will mix and then add Presto, Dutch Boy Presto, look better in 3 big ways. Triple proof that National Lead, through close, persistent research, is bringing you better and better products to sell.

1. **Whiter Whiter!** & other clear colors brighter, more sparkling white jobs... sharper, clearer tone. A white that means Dutch Boy is going to mix and finish, for other lead and paint.

2. **Improved Body!** Dutch Boy now makes a heavier paste... an even sturdier home guard than in the past. A paste that will last and last and still stand again in repeated coats!

3. **Better Hiding Power!** Fine brush strokes will prove it... but only more solid coverage but more coverage too!

And covered your customers of the other paints that have made Dutch Boy the biggest selling paint in the Land. Easy to mix... easy to spread... long lasting... smooth covering. Fine the three right com-

ings of two parts per gallon and adaptability to any job.

In pushing ahead with constant research, the Dutch Boy has covered paint white lead in a new high. It's given you 3 new reasons for pushing it hard.

NATIONAL LEAD COMPANY
111 Broadway, New York 100, U.S.A. (In Canada, 1211 West Third Street, Montreal 112, Quebec, Canada.)
Branches in London, London, England, and in many other cities.
Dutch Boy is a registered trademark of National Lead Company, Inc., New York, N.Y., U.S.A. and in other countries.

Red Petticoats. 1941 Model

A new, more efficient and more durable paint, for a more complete finish... and more, for maintenance. Paint is part of the program. A lack of the same can be properly covered—led to her previous red and petticoats before she does her own work.

The 1941 Model "red petticoats" is a new red lead, available not only to the regular house and power houses, but also in a good driving type.

It is a good paint for many reasons and other reasons where it is available during time in short, that is the Dutch Boy Red Lead is a direct result of the extensive research and

on the National Lead Company in a constant effort to improve red lead.

Here is a pure red lead paint that does as it is made for covering in

from ten to six hours.

This two-hour paint is made with one highly standard red lead - the same superior pigment which is superior for the whole population of the regular Dutch Boy Red Lead.

The highly standard pigment used, and with, has a true red lead

(17.1) content of more than 97% but is mixed for an extremely fine particle size.

There is a desirable, smooth paste to use this highly standard to red water, power, and other reasons of efficiency.

In place of all other services in Dutch Boy Red Lead is a help to protect and strengthen the house from, surely that is the

extensive research and testing has shown that the Dutch Boy Red Lead is a pure red lead, and it is a good paint for many reasons and other reasons where it is available during time in short, that is the Dutch Boy Red Lead is a direct result of the extensive research and

It would appear that the Commission in 1936 was not
convinced that the evidence was sufficient to establish the
fact that the defendant was a member of the Communist Party
at the time of the trial. The Commission also noted that
the defendant was not a member of the Communist Party at the
time of the trial.

An American Home Defense!

Many an old Colonial dwelling that in the olden days of Paul Revere still stands today... an ancient reminder that our forefathers defended their homes not only against marauding hordes but against the elements themselves.

Safety through the storm of two centuries has been found in the sturdy lines of the Dutch Boy White Lead.

...and again **PURE WHITE LEAD** is Ready to Protect American Homes!

Today not only every blacksmith, village and town... but every farmer and every city dweller... is turning to Dutch Boy White Lead... for the best protection for their homes.

And from the front ranks of America's Home Guard... the Dutch Boy White Lead... is the best protection for their homes.

Now's the time to have the home of the future... the home of the future... is a home that is built to last... a home that is built to last... a home that is built to last...

When you buy a Dutch Boy White Lead... you are buying the best... you are buying the best... you are buying the best...

Get Dutch Boy White Lead... the Dutch Boy White Lead... the Dutch Boy White Lead... the Dutch Boy White Lead...

Protected since the Nation was born
...with PURE WHITE LEAD

Long before Vesuvius first blew his immortal smoke, the bones of the brave were protected by America's first and finest - sturdy Pure White Lead. There has been no very little dose of Liberty the sturdiest paint has delivered home against the foe, the chronic Guard of the Nation for the last 100 years. And today - in the front ranks of America's Most Defiant - Pure White Lead comes to you bearing the true banner name - "Dutch Boy".

Now a New Formula
Ready for the Brush!

And, everything inside the Dutch Boy's famous Pure White Lead there means today has now slipped to home defense - Dutch Boy's Pure White Lead Paint. It's pure white lead - all ready to spread! Obvious, it's ready to use paint here, all of white lead's wonderful strength and strength. Yes, the new Dutch Boy paint is more than regular quality paint. White Lead, as you know, keeps light, keeps long, covers down slowly, completely, toward all weather and heating. Thus, it keeps home strong and saves you the expense of burning and scraping when you finally do repaint.

Remember, it pays to have a good painter. And the best painter is Dutch Boy's pure white lead - the true power to the famous paint - "If you're really good when you paint with white lead."

TEACHING RUNCY ACID TABLE-MANNERS

Has anyone ever tried to take food from a dish? You can't - but not to take the food from the dish.

In short, you need Tellurium Lead. This new alloy teaches the art of courteous eating even at a restaurant. It is the missing piece of the puzzle. It prevents the life of food, keeps it from spoiling, and keeps it from being eaten. It is the missing piece of the puzzle. It prevents the life of food, keeps it from spoiling, and keeps it from being eaten.

Strengthens under stress. A tough lead in form with Tellurium Lead actually gets stronger when pulled.

It is the missing piece of the puzzle. It prevents the life of food, keeps it from spoiling, and keeps it from being eaten. It is the missing piece of the puzzle. It prevents the life of food, keeps it from spoiling, and keeps it from being eaten.

Tellurium Lead of our manufacture

is now being used by the leading manufacturers of lead. It gives the advantages of this alloy - the strength of lead plus important new uses. Yet costs only a fraction of other alloys per pound than other alloys of lead. Available in sheets, pipe and rods. For further facts, write our nearest branch, listed below.

WHY WHITE LEAD HELPS PAINT "WORK" LONG

You've noticed how paint with a high lead content flows smoothly... level off evenly... give off little less ease of spreading with flying colors.

The reason is that Dutch Boy's white lead and oil have a strong attraction for each other. A reaction takes place between the white lead and the surface of the pigment particles. This reaction causes the formation of lead compounds which form permanent bonds. Improvement in working qualities is but one of the many desirable properties which Dutch Boy's white lead imparts to paint. Builders and painters

know, many thousands of times proved durability. I look over the fine lead white paint that the Dutch Boy offers. They range from a low oil absorption type to one with more high building and paint thickening power. Knowing these you will find a lead exactly suited to your needs.

Wall Street Journal
Journal of Commerce - 1942

WE'RE MOVING A MOUNTAIN... (to help make paint for defense!)

HIGH in the Adirondacks near Ticonderoga, New York... miles from a highway, railroad or power source... is a mammoth deposit of ore that America's paint industries needs - now!

Buried in the heart of Sanford Hill, it is a rich, titanium-bearing iron ore... source of titanium dioxide, man's whitest, most opaque paint pigment.

For months, National Lead Company engineers have been toiling... laying an 8 1/2 mile, heavy-duty road... erecting mill buildings and workers' houses... driving a 12-mile, 1000-lb. gauge line clear through virgin forest.

Now, titanium from Ticonderoga will be flowing to pigment plants, the raw to paint makers, in an ever-broadening stream.

Eventually, much of Sanford Hill will be gone... literally moved to manufacture paint coverage.

Development of the Sanford Hill region, made possible through government, symbolizes titanium's growth in industrial importance during the past 20 years.

While current output is devoted largely to paint, titanium pigments are used for many purposes... in brightens and opacifiers... in the manufacture of white or light-tinted rubbers and leather goods... for dechlorinating rayon... as a catalytic ingredient in resins.

This wide application has been due in part to the leadership of National Lead Company, the principal producer... a leadership, fostered by research and marketing initiative, that underlies the success of all company products in fields where they serve.

Among these products is the famous Dutch Boy White Lead... base for tough, durable paint that protects thousands of American homes against time and the weather.

Also outstanding is Dutch Boy Red Lead... foundation of the brilliant, orange-red paint most engineers rely on to guard steel structures from rust.

Others are sheet lead and lead pipe... virtually indispensable in the building and storage of corrosive industrial acids and gases.

And there are still others... balling metal, a standard lining for marine, automotive and machinery bearings... solder, the most practical material man has devised for the joining of metals... alloys, needed today for munitions and as replacements for scarce, critical raw materials.

National Lead Company products... used in nearly every field... indeed serve the nation faithfully and well... in peace or in war.

The Best Known Boy
in the HOME Guard..

Everybody knows the Dutch Boy! He's been guarding homes all over the world since he was born in the Netherlands.

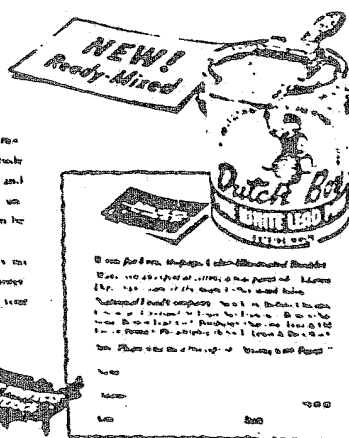

Small wonder Dutch Boy White Lead is first in the paint world. It holds the home from both Dutch and German hands. It keeps them out and keeps them in. That's why it's the most popular paint in the world.

Dutch Boy White Lead is a pure white paint. It's the only paint in the world that's so pure.

And it's the only paint in the world that's so pure. It's the only paint in the world that's so pure. It's the only paint in the world that's so pure.

For real home defense, there's no substitute like good paint and a good painter. And whatever form of Dutch Boy you use, you'll find it's the best paint in the world.

"Count on me—I'm a
Home Defender
from 'way back"

There is no idle boast of the Dutch Boy. He can prove to long and honest service in defense of American homes.

Since the Nation was born White Lead has proved its ability to keep the boy—son, farm, wind and wave.

For surely white lead doesn't crack and scale. It keeps tight and long, gives you satisfaction, saves money. Thus, when it really is time to repaint, you save the expense of burning and scraping old old paint.

Today Dutch Boy White Lead, somewhat sold only as a paint is now also sold as a new finish on a ready mixed paste. This new

paint is just what you need for the special job of painting the exterior of the new Dutch Boy House. It is the new Dutch Boy House paint, in both Exterior Primer and White Lead. Together they give you the best of both worlds. They give you the best of both worlds. They give you the best of both worlds.

Remember, for real home defense, there is no substitute for this great paint and a good primer. And the best of both is the Dutch Boy House paint. The new paint is the ultimate proof—your money should when you paint with when had.

Right in Step for Home Defense

It's a "War of Survival" — on the Home Front. — And right in step with his fighting Uncle Sam is the Dutch Boy. He's the one who's got the goods. Nothing helps home's cause the more and the more like good paint — and good paint is what you need Dutch Boy White Lead.

Since Colonial days Dutch Boy's Tradition has been to protect the Nation's homes, farms and other buildings against the elements. And today Dutch Boy carries on its tradition. It's an ever-lasting that never cracks and never fades, saving the cost of buying and wiping off old paint at repair time. And its long, lasting service helps the cause by conserving paint materials.

Dutch Boy, however, adds such as put a home, is also available as a ready-to-paint white lead paint. It's such a good paint for the most work it comes in Enamel or Primer and Chalk White. Together they give sparkling, clean and complete coverage with

two coats — even on unpainted wood. Of course, all white lead paint can be colored.

Keep in mind — there's no combination like good paint and a good painter. And whichever form of Dutch Boy you use to paint — the famous part of the mix — you'll always stand when you paint with White Lead.

National Lead Company, New York, N.Y., is the largest manufacturer of paint in the world. It's the only one that's been in business since 1877. It's the only one that's been in business since 1877.

HOME DEFENSE?

That's Right Down My Street!

— Dutch Boy

By Home Defense? It is the question that every citizen should ask himself.

There is a real home defense that every citizen should know. It is the defense of the home, the defense of the family, the defense of the community. It is the defense of the home, the defense of the family, the defense of the community. It is the defense of the home, the defense of the family, the defense of the community.

Under the average bill of the American, the average man and woman are not only not protected, but they are not even protected. They are not protected by the law, they are not protected by the government, they are not protected by the community. They are not protected by the law, they are not protected by the government, they are not protected by the community.

Home defense and home security are the two things that every citizen should know. They are the two things that every citizen should know. They are the two things that every citizen should know. They are the two things that every citizen should know.

Before you start painting, be sure you have a good surface to work on. If the surface is not smooth, it will not hold the paint. So, before you start painting, be sure you have a good surface to work on.

There are many different kinds of paint. But the best kind is the one that is made of lead. Lead paint is the best kind of paint because it is the only kind of paint that will last for ever.

Since the nation has been at war, it is important to have a good surface to work on. So, before you start painting, be sure you have a good surface to work on.

White lead is an excellent paint. It is the best kind of paint because it is the only kind of paint that will last for ever.

Today there is enough white lead to build a house and a school. So, before you start painting, be sure you have a good surface to work on.

Dutch Boy White Lead is available in many different sizes. It is the best kind of paint because it is the only kind of paint that will last for ever.

Remember, when you buy Dutch Boy White Lead, be sure you get the best kind of paint. It is the only kind of paint that will last for ever.

Food's one job I can't leave to others. The Dutch Boy's an old hand at protecting dairy farms, as well as homes and other farm buildings.

Some the Dutch Boy has been White Lead but proved so slow to dry that farmers won't use it.

Two weeks white lead took up to weather. In days Dutch Boy dries, gives 'tint' and shines. One coat still stands. This is how it holds a home so important you have the expense of painting and waiting - a real pain.

Today Dutch Boy White Lead, smooth, old, rich as a pie, has been discovered in a new home as a ready-mixed paint. This new paint is pure white lead, all ready to spray! I've lately changed my routine work, the two Dutch Boy Paints serve as both Interior Primer and Finish. White. Together they give sparkling clean and complete coverage.

Two weeks, even an unpainted wood, in ten days the Dutch Boy White Lead Paint is completely in shape and looking like any finished workpiece from the market. And it provides the extra protection of white lead at the cost of regular quality paint.

So whenever you use Dutch Boy paint on your buildings - the new paint is the better job. Remember - you're money saved when you paint with White Lead.

The Best Known Boy in the HOME Guard..

Everybody knows the Dutch Boy! He's been guarding American homes and farm buildings since before many of us were born. In fact, White Lead grew up with America.

Small wonder Dutch Boy White Lead is now in the front ranks of Home Defense. It looks the best and Dutch boys everywhere are long, lean, and strong and able. Thus, when it comes to time to repoint, you save the expense of burning and wrapping all the old paint.

Today, Dutch Boy White Lead—homemade addition to a fine old paint—also adds in a new home—as a ready mixed paint. This new paint is pure white lead, all ready to use and it costs no more than

regular quality paint. Especially designed to repoint work on either new or previously painted wood, it comes in Interior Primer and Outside White. Used together, they give lasting, lasting and a lifetime unexcelled by any other paint on the market. Of course, where lead paint can be readily removed it should.

Remember, because of the need of conserving materials it's more important than ever to use a paint that stands up. And you can't use a paint that is more durable than Dutch Boy. Whenever home goes on and property—the new paint is the better paint—so you're money placed when you paint with a new lead.

NEW!
Ready-Mixed

Use for the best of results. Dutch Boy White Lead is the best paint for repointing work. It is made from white lead and oil, and it is the best paint for repointing work. It is made from white lead and oil, and it is the best paint for repointing work.

Before the war, the Dutch had a reputation for being a peaceful people. But now, they are fighting for their freedom.

They are fighting for their freedom, and they are fighting for their lives. They are fighting for their future.

Since the war, the Dutch have been fighting for their freedom. They have been fighting for their lives.

When the war was over, the Dutch were still fighting for their freedom. They were still fighting for their lives.

Today, there is much more to be done. There is much more to be fought for. There is much more to be won.

Dutch Boy White Lead Paint is the best paint for your home. It is the best paint for your walls.

Remember, when you buy Dutch Boy White Lead Paint, you are buying the best paint for your home.

Let's give Defense Homes real Defense against the Years!...

There's a real defense home - one that's built to last. It's not just a place to live, it's a place to live in peace and quiet, and for the years to come.

It's an opportunity for the man and his family to live in a home that's built to last.

For while the war goes on, it's planned for the man's peace, and it's built to last. And as the war goes on, it's planned for the man's peace, and it's built to last.

Dutch Boy has Doubled

Today this Famous Defender

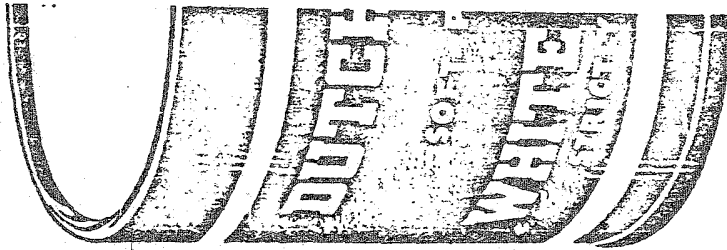

1. THE PASTE FORM

In these critical times, American property owners and painters depend more than ever on their famous home guard—the best in the blue overall. And his Dutch Boy Paste White Lead is a real ally. Here's why:

1. It protects the home front through thick and thin—days on, doesn't crack and scale. It's all, conservative, both property and material—both impervious and these days.
2. It has no need for gallons of paint means you can give every type of job the extra durability, it's all, customer good will.
3. It's all (paste) mix means it can be used on any surface—wood, plaster, brick or even new—brush or white. It's all, just having a reason.
4. There's no shortage of Dutch Boy—no change in quality. Every name in the new Triple-Improved White Lead. It's all, up-to-date, white, lead and holding.

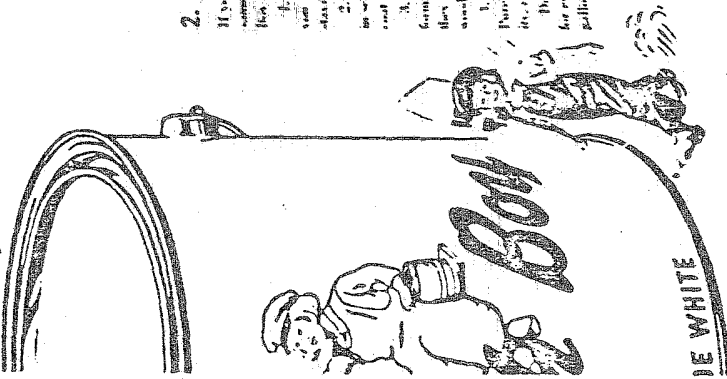

For lead and new service, sign up with Dutch Boy Paste White Lead.

NATIONAL LEAD

the Home Guard!

Serves in Two Uniforms

COMPANY

2. THE PAINT FORM

If you want a white lead already mixed, here's the answer. Dutch Boy Paste White Lead is the most famous home guard in the paint world. It's all, up-to-date, white, lead and holding.

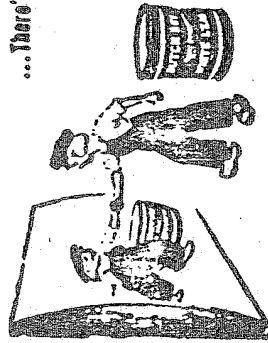

1. It gives you a lead already mixed, here's the answer. Dutch Boy Paste White Lead is the most famous home guard in the paint world. It's all, up-to-date, white, lead and holding.
2. It offers you a lead already mixed, here's the answer. Dutch Boy Paste White Lead is the most famous home guard in the paint world. It's all, up-to-date, white, lead and holding.
3. It offers you a lead already mixed, here's the answer. Dutch Boy Paste White Lead is the most famous home guard in the paint world. It's all, up-to-date, white, lead and holding.

For every job, quart, gallon, 5 gallon can and 20 gallon drum.

Any way you look at it—PASTE or PAINT—it's still Dutch Boy

...There's No Shortage of Pure White Lead...

...And it's still Long on Quality...

If before you saw the famous Dutch Boy Pure Lead in the new Dutch Boy Paint, you're getting familiar with, weather-resistant White Lead.

Now the Nation's big war, White Lead has helped produce a new property. In this war the Home Front plays such a vital role that it deserves more than ever, the protection of good paint. You know that good paint's other name is Dutch Boy. White Lead for a Dutch Boy painter not crack and scale. It and only leads long stuff but it makes property last long too. That is concrete material in two important ways.

And you'll be glad to know that there's no shortage of either the pure form or the paint—in fact there's no shortage of white lead. That's there's an ample supply of Dutch Boy for lead war and essential civilian use... and it's traditional quality as we hang. So whatever form of Dutch Boy you brush on, you are giving the Home Front protection that will see it through the tough years ahead.

AND WHEN IT COMES TO DUTCH BOY PASTE LEAD, remember these points:

1. It has and for several gallons of paint enables you to give every type of job the greatest advantages of white lead.

2. It puts up real resistance to wear on any surface—wood, plaster, brick or concrete—tinted or white.

3. It's *Triple-Improved*—improved in whiteness, body and holding.

Yes, Dutch Boy Paste Lead is a real ally to you painters who safeguard America's homes, farms, plants and military installations.

THE NEW DUTCH BOY PURE WHITE LEAD PAINT is good news to painters who want a ready-to-use paint.

Not only is it ready to brush on... but in addition it gives all the standard advantages of qualities that make Dutch Boy Pure Lead famous.

Dutch Boy's new paint offers you increased flexible economy for sealing, lining and whitening in any toughest condition in the market.

Come in Exterior Primer and Outside White... need no other dry mix a "hangup" job on new wood or repair work. Yet extraordinary Dutch Boy Paste costs no more than regular quality ready-to-use paint. Its price, 50¢ per gallon and 2 1/2¢ per quart.

This advertisement will appear in the trade papers listed below on dates indicated:
 National Furniture Magazine, November, 1942, 1 page, Box 2, 1 x 10 inches
 American Furniture & Interiors, December, 1942, 1 page, Box 2, 10 x 14 inches
 Painter and Decorator, November, 1942, 1 page, Box 2, 11 x 16 inches

You can be glad there's NO SHORTAGE OF WAR PAINT

FORTUNATELY for everybody concerned with painting, there is at present no shortage of white lead—the time-tested painting material. Not only is there enough available for all civilian as well as military needs—but its uniformly high quality remains unchanged.

This means you can still recommend *pure white lead paint* as the “war paint” that gives tough, long-lasting protection against all weathering effects—with freedom from scaling and cracking.

And, as you well know, every white lead paint job you do helps boost

your good reputation by enabling you to make more satisfied customers.

So, whenever you get the chance, suggest using *pure white lead paint*—to help hold old customers and to win new ones!

Book and Binder with 100 Cards

There was a lot of interest in the fact that the first of the
production of a new bird and in the same time it was
in working, being and a known by the people in the
on the matter.

The one I had a few good runs for a while - I tried
at first and made it but then I was hurt a few days
and together they give a real tough, long lasting job - and

And the price is no higher than the cost of my best quality
ready-made jacket. Give the per haps take a close look
around here and a look even read the third ready-made jacket
top. Under it is a black vest, and it is a black vest, and
more all together making a perfect 3-piece suit and

America's Best Known

PAINT OR PASTE

The history of American home production is recorded in the fact that Dutch Boy White Lead has been the standard for over thirty years. It is the only paint or paste that has been made in this country since its invention, and it has remained the same through the years. It is the only paint or paste that has been made in this country since its invention, and it has remained the same through the years.

Dutch Boy White Lead is the most famous paint in the world. It is the only paint that has been made in this country since its invention, and it has remained the same through the years. It is the only paint that has been made in this country since its invention, and it has remained the same through the years.

And its extra durability is more important than ever today. It is the only paint that has been made in this country since its invention, and it has remained the same through the years. It is the only paint that has been made in this country since its invention, and it has remained the same through the years.

It is the only paint that has been made in this country since its invention, and it has remained the same through the years. It is the only paint that has been made in this country since its invention, and it has remained the same through the years.

Another big white paint... Dutch Boy White Lead is the only paint that has been made in this country since its invention, and it has remained the same through the years. It is the only paint that has been made in this country since its invention, and it has remained the same through the years.

It now produces a better white, cleaner, brighter, and more durable than any other paint. It is the only paint that has been made in this country since its invention, and it has remained the same through the years. It is the only paint that has been made in this country since its invention, and it has remained the same through the years.

And remind your customers that they never brushed as easily spreading paint... see more reason Triple Improved Dutch Boy is white lead at its best!

Home Guard

IT'S A MATTER OF TASTE!

It is the fact that Home Guard is the only paint that has been made in this country since its invention, and it has remained the same through the years. It is the only paint that has been made in this country since its invention, and it has remained the same through the years.

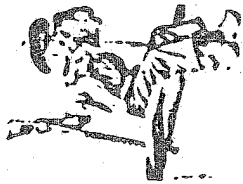

Here's a product, ready to spread - that gives the protection of pure white lead!

And it offers something really unusual for painting, hiding and whitening - any two-coat combination on the market!

That new Dutch Boy Point comes in two bottles - Primer and Finish. Together they give a gleaming, durable set on new or old wood.

Even the toughest, any quality and value... spreading white and blue, 100, 200, 300, 400, 500, 600, 700, 800, 900, 1000, 1100, 1200, 1300, 1400, 1500, 1600, 1700, 1800, 1900, 2000, 2100, 2200, 2300, From Every Angle... it's Pure White Lead

nothing would prove that we belong, but when it comes to being told
there's no room for us, we have that same major that says that we
don't have to be admitted to the house, we can live... the French
men, we know, and we know... we know that we can live... we know
that we can live with them, and we know that we can live with them.

Y. white House in Fla. by letter of 1891, & answer in 1892 on 10-2-92. The answer was published.

Quadrant 4: Low Power, Low Influence

Yes, it's true, but remember that there is this factor and another factor that alone is not... the other two are just mere... the same as the other two... that is all you need to remember... since you can only read, please, both are very important.

They find a new house this summer. I will go to see it. I hope to find it a good one. I will go to see it. I will go to see it.

U. S. Engineers and Watermen: State of Ohio, for various reasons, including the above, GEORGE LINDA and his wife, accepting service there as a partner, and being more than two years, lands, houses and

Dutch Boy has Outbid the Home Guard!

Today this Famous Defender Serves in **HYPO** uniforms

THIS WAR is being
fought on the other
ground now -- and passed
it to the "business plan" that
promises to cost business, school
and military buildings. It
has just as well "be
passed" as it has the good
ground that is now being
passed.

know the truth of the matter. What I had here proved is clearly to guard America's interests. The day that I saw that White Land is coming in two weeks - the famous Power House and the new United States. The Power House is well known to everyone, they will get a real Power House.

1. THE PAST YEAR

3. In power to the other branches to use their right to amend the constitution was, therefore, not to be denied to any branch of government and each branch - in its independent sphere of activity.

The first part of the book is devoted to a general
 introduction to the subject of the history of the
 world, and to a discussion of the various theories
 which have been advanced regarding its origin and
 development. The second part of the book is
 devoted to a detailed account of the progress of
 civilization from the earliest times to the present
 day. This part of the book is divided into three
 main sections, each dealing with one of the great
 civilizations of the world - the Egyptian, the Greek,
 and the Roman. Each section contains a full and
 complete history of the civilization in question, as
 well as a detailed account of its art, literature,
 science, and religion. The third part of the book
 is devoted to a general survey of the world since
 the fall of Rome, and to a discussion of the
 various theories which have been advanced regarding
 the future of the world. This part of the book
 concludes with a chapter on the present state of
 the world, and on the prospects of the future.

1. The first year plantings and
 2. The second year plantings. In each
 year the same number of plants
 were planted in each year.

The first year plantings and
 the second year plantings. In each
 year the same number of plants
 were planted in each year.

2. THE PAINY FORM

1. If you wish to be a member of the church, you must first be a Christian. This means that you must have faith in Jesus Christ, and that you must have been baptized in water in the name of the Father, the Son, and the Holy Spirit. If you have done these things, you are a Christian, and you are eligible to be a member of the church.

2. It follows a theoretical path, namely, with all the same conditions, whether the law was enacted, conditioned upon the enactment of other laws or that it should be enacted as a separate measure. If the law is enacted as a separate measure, it is more likely to be enacted than if it is enacted as a condition upon the enactment of other laws.

8. I like to see these people and also to take to Mary Press. We have found them on the ground and very close together, possibly to some purpose. I saw the people on the ground, some being late and others, as far as I know, the people, with me, together. But, and so, all the same.

Any way you look at it—**PASTE** or **PAINT**—it's still Dutch Boy

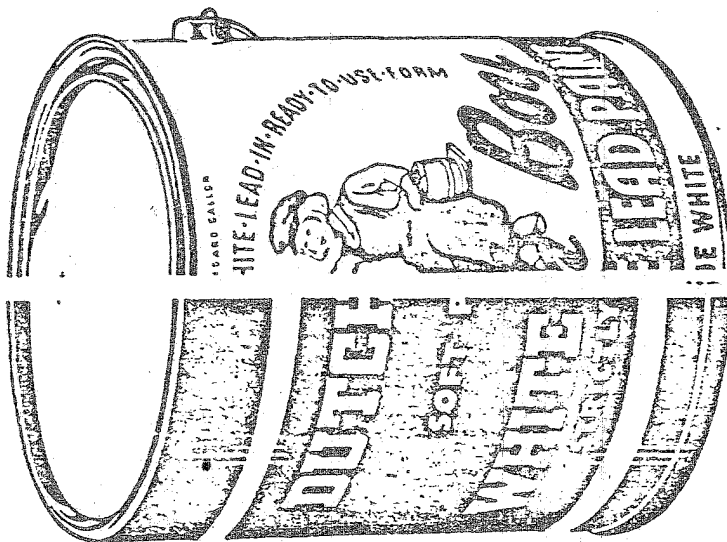

There's No Shortage of Pure White Lead... And It's still Long on Quality...

It is hardly possible to say how many of the members of the Club in New France lived at the same time as the Club in New France, they are probably scattered over the whole of the country.

[illegible][illegible]

1. The new and improved collection of patent medicines is for everyone. The powerful protection of white lead has never before.

[illegible]

Dear, I hope to hear from you soon and all the best wishes
 Yours as a friend, Emma, please send mother's love to all
 and love

THE NEW NOTICE BOY FIRST WENT UP TO THE ROOF AND
SINGLED OUT THE ONE THAT WAS THE MOST IMPORTANT.

There is no point that is really the least in a vast exhibition, and which is the most important of all, the point of view.

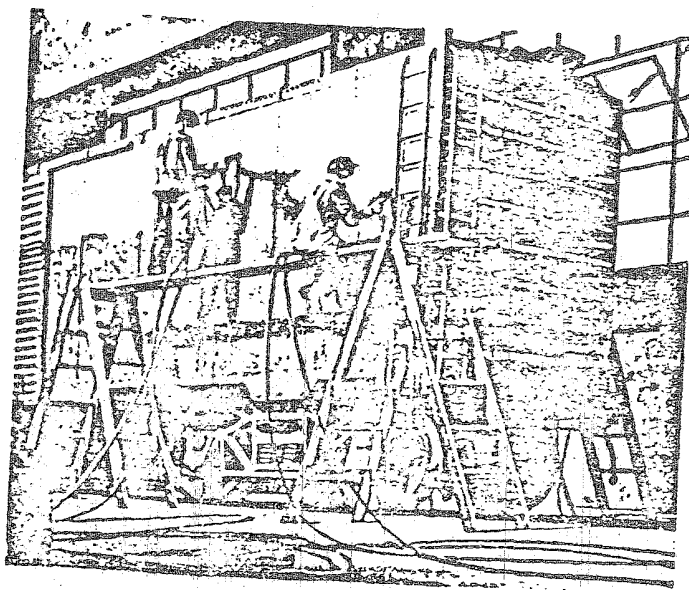

I hope to have done so by the time I reach the office tomorrow morning.

For the packages have "found" a sparkling clear and white, in every way equal to quartz, gallium, selenium, etc., gallium, etc.

THE

for the War of Words . . .

There are also many other things which
should be noted and which are not
mentioned in the text. The first of these
is the fact that the text is written in
a very old hand, and that the ink is
very faded and the paper is very yellowed.

Tell the people, when we are in the
ground while the hour of the resurrection
is in the future. You I understand are
opposed - And I feel for your sake and
to our work we are not at all to be
blamed for it is our work.

The immediate purpose of a good person
is to do good - and therefore he must be
willing to do so at all times - and in all places.
He must be able to do so without being
seen or known.

[illegible]

The following is a list of the names of the persons who have been appointed to the various positions of the Board of Directors of the City of New York, for the year 1890.

Developed the database above after
doing more research.

In practically every American industry which this Red Road is helping to produce the boom trend and strengthen the business drive.

Why does a Bridge wobble

These suspensions hold up something mighty important to look upon these days. Something that helps pass in a Nation's time. It keeps the thing steady, close together... even wags in its frame and on the line.

But why red wags wags? Because that road and load.

In better road pavements roads than the thick the Red Road with which the bridge was passed. It provides a smooth, stable surface to protect bridges, ships, railroad equipment, tanks, pipe lines and other metal structures against corrosion. This represents a due to the fact that in thick the Red Road is the most recent pro-

gressive quality of paint and had been been brought to a new peak of efficiency as a result of intensive research by National Road tests in the laboratory and on the job.

Available in three basic forms, liquid, and quick drying - thick the Red Road is made with highly refined red lead having a purity of 95%, the content of iron is 5%, and the content of lead is 40% by weight. The surface is smooth, durable, provides the best light and is highly resistant to moisture, weather, dampness, sulphurous gases, salt water and other causes of corrosion.

The quick drying form of thick the Red Road was especially developed to take care of situations where allowable drying time is short. There are two types, the slow drying type on 1 to 2 days and the other on even faster drying.

In particular, every American industry thick the Red Road is looking to protect the heavy loads and strengthen the Nation's drive.

It is a fact that the Red Road is the most recent product of the National Road tests.

It is a fact that the Red Road is the most recent product of the National Road tests.

You can be glad there's NO SHORTAGE OF WAR PAINT

DEFINITELY for the building industry, there is at present no shortage of white lead. Not only is there enough available for all civilian as well as military needs - but the unusually high quality remains unchanged.

This means you can get right on painting jobs, white lead paint is getting better performance and longer life at no premium in cost.

White lead paint is the "best paint" in use. In addition to its great durability it has an "easy" quality which prevents cracking and

from every angle. It's the production and maintenance of this lead paint process that "the best" is the best.

LEAD INDUSTRY ASSOCIATION
 120 Lexington Avenue, New York, N. Y.

RECOMMENDATION FOR WHITE LEAD PAINT - For the best results in painting, use the best white lead paint available. This is the only paint that will give you the best results in painting.

Announcing... TIO OIL

*A New
Fast-Bodying
Activated Linseed Oil*

TIO OIL IS A NEW TYPE OIL - An activated linseed oil produced by National Lead Company through a special process. This TIO Oil is not used in the field of protective and decorative coatings.

TIO OIL IS EASY TO HANDLE - It is pure, linseed oil - contains no other rapid bodying oils or special resin. No unusual dilution technique or special equipment is necessary in handling Seven-Ten Oil.

TIO OIL SPEEDS MANUFACTURE - You looking, quick setting, hard, thorough drying... it is ideal for use in the types of varnishes, stains and enamels now in demand.

TIO OIL WORKS HARD, TOUGH FINISH - It dries much faster than other polymeric or unpolymerized linseed oils. And the dried film is harder and tougher than ordinary unactivated linseed oil films.

TIO OIL AVAILABLE IN 3 VISCOSITIES - V, Z, and 10 M. The characteristics and properties of typical batches are given in the table below.

| Physical Characteristics and Chemical Analysis | Viscosity V | Viscosity Z | Viscosity 10 M |
|--|-------------|-------------|----------------|
| Viscosity at 70° F. | 60-70 | 100 | 200 |
| Specific Gravity at 15.5° C. | 0.925 | 0.93 | 0.935 |
| Acid Value per 100 g. | 17.5 | 17.5 | 17.5 |
| Alcohol Number | 12 | 12 | 12 |
| Insoluble in Alcohol | 1.0 | 1.0 | 1.0 |
| Refractive Index | 1.465 | 1.465 | 1.465 |
| Color (ASTM) | 10 | 10 | 10 |
| Settling Time at 70° F. | 10 min. | 15 min. | 20 min. |

For a complete description of Seven-Ten Oil, including manufacturing and processing procedures, write or visit nearest branch office.

TIO OIL

*A New
Fast-Bodying
Activated Linseed Oil*

TIO OIL IS A NEW TYPE OIL—An activated linseed oil produced by National Lead Company through a special process. *Seven-Ten Oil* fills a current need in the field of protective and decorative coatings.

TIO OIL IS EASY TO HANDLE—It is 100% linseed oil—contains no other rapid-bodying oils or special resin. No unusual skill or technique or special equipment is necessary in handling *Seven-Ten Oil*.

TIO OIL SPEEDS MANUFACTURE—Fast-bodying... quick-setting... hard, thorough-drying... it is ideal for use in the types of varnishes, flats and enamels now in demand.

TIO OIL MAKES HARD, TOUGH FILM—It dries much faster than either polymerized or unpolymerized linseed oils. And the dried film is harder and tougher than ordinary unactivated linseed oil films.

TIO OIL AVAILABLE IN 3 VISCOSITIES—V, Z3 and 10-M. The characteristics and properties of typical batches are given in the table below.

| Physical Characteristics and Chemical Constants | Viscosity V | Viscosity Z3 | Viscosity 10-M |
|---|-------------|--------------|----------------|
| Viscosity in Poles | 9 | 28 | 980 |
| Specific Gravity—15.5°C. | 0.925 | 0.931 | 0.938 |
| Weight per gal. (160 lb.) | 7.55 | 8.15 | 8.12 |
| Coastline per lb. | 12.11 | 12.16 | 12.42 |
| Acid Number | 12 | 14 | 16 |
| Solvent Number | 145 | 146 | 148 |
| Refractive Index | 1.4681 | 1.4680 | 1.4680 |
| Color (Hag) | 15 | 15 | 15 |
| Set Time in 104°F. | 95 Min | 55 Min | 20 Min |

For a complete description of *Seven-Ten Oil*, including varnish-making and paint-making procedures, address our nearest branch office.

Announcing... TIO OIL

A New
Fast-Bodying
Activated Linseed Oil

- TIO OIL IS A NEW TYPE OIL** - A new type of oil produced by National Lead Co. from a special process of refining and activating linseed oil.
- TIO OIL IS EASY TO HANDLE** - It is a fast-bodying oil, which means it is easy to handle and does not require special equipment or special handling.
- TIO OIL SPEEDS MANUFACTURING** - It is a fast-bodying oil, which means it is easy to handle and does not require special equipment or special handling.
- TIO OIL MAKES HARD, TOUGH FILMS** - It is a fast-bodying oil, which means it is easy to handle and does not require special equipment or special handling.
- TIO OIL AVAILABLE IN DISCOUNTS** - It is a fast-bodying oil, which means it is easy to handle and does not require special equipment or special handling.

| Approximate Viscosity at 100° F. | Approximate Viscosity at 210° F. | Approximate Viscosity at 250° F. |

MATERIALS SECTION

KIRKSITE "A"

FOR
ACCURATE
DIES

-at a
Fraction of
the Cost!

-in a
Fraction of
the Time!

Send for our new book
to find out how you
can save money by using
Kirksite "A" in your
die casting work.

Produce accurate dies at a fraction of the cost of steel or cast iron and in a fraction of the time! Dies of Kirksite "A" may be sand cast so accurately that many hours of hand and machine work in finishing are eliminated. This important saving in time is proving the value of Kirksite in leading aircraft plants where sand cast dies made of this modern alloy are being used for the forming and drawing of aluminum alloy, stainless steel and Inconel sheet metal parts, as well as for the trimming of aluminum sheet. Further savings are realized by the low melting point and freedom from oxidation of Kirksite; it can be remelted and recast indefinitely with very little loss. Where long runs of parts are produced, the natural "oiliness" of Kirksite "A" enables it to resist wear and to insure a smooth finish on stamped parts whose dimensions and contours are accurate.

KIRKSITE "A" IS NOW A WAR METAL

The entire output of Kirksite "A" is now sufficient at the present time to meet the demand of vital war industries. Therefore the purpose of this advertisement is merely to call to the attention of future users the characteristics of this new alloy, against the time when the many unique advantages of Kirksite "A" will be available to all.

**FORMED
WITHOUT
SCRATCHES!**

KIRKSITE "A" IS NOW A WAR METAL

The entire output of Kirksite "A" is not sufficient at the present time to meet the demand of vital war industries. Therefore the purpose of this advertisement is merely to call to the attention of future users the characteristics of this new alloy, against the time when the many unique advantages of Kirksite "A" will be available to all.

Send for our new Brochure E that will give you all the necessary details about the working qualities of Kirksite "A". You will want to keep it for future reference.

with the **MODERN Die Alloy KIRKSITE "A"**

The unique metallurgical structure of dies made of Kirksite "A" makes it possible to form, draw or stamp intricate parts without scratching! Kirksite "A", the modern die alloy, possesses a natural "oiliness" that reduces friction and prevents scratching. Furthermore, because of this quality, Kirksite "A" does not "gall" or "load up" as steel or iron dies often do.

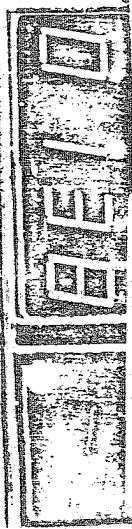

Get better parts with lower die costs... because Kirksite "A" can be sand-cast or used in rolled form and put into production with a minimum of hand or machine finishing... because Kirksite "A" can be re-melted and re-used indefinitely... because dies worn after long use can be built up by welding. These savings in man hours and material are as important today as the quality of the work which Kirksite "A" dies produce.
