PCB Bulk Handling

In November, 1974, Bill Lubic circulated a copy of the Aroclor Handling Bulletin for comment prior to reprinting. We have manufacturing department's comments, but nothing as yet from research. We cannot circulate final drafts through legal/medical/trademark/product acceptability until we incorporate your views.

Could you please review the book and let Bill Lubic have your comments and suggestions. Thank you.

David Wood

/deb

David

The book requires extensive rewriting although the revision date shown on the front is May 1, 1956 (which is bad enough) there are some points which date back to 1911. Maybe I have the wrong book but I am talking of: "The Proper Handling of Aroclors and Their Mixtures in the Electrical Industry" by PGL 1-1-56
