Mr. Vandiver Brown
General Attorney

NOTED
V. B.

General Headquarters
October 24, 1941

Industrial Hygiene Foundation of America, Inc.

While I am reluctant to send this letter out, I am willing to do so if you think it important.

I would be inclined to add a third paragraph as follows:

"If you have problems of industrial hygiene comparable to those on which the Foundation was helpful to us, you may be glad to have one of your organization look further into the facilities [available] by this non-profit organization."
