MR. FRED ULMER, MANAGER
GROUP DIVISION

I am attaching a list of the Groups whose plants were surveyed within the past two years together with a list of surveys pending which we expect to complete some time during the year. Of this group, arrangements have been made to contact Republic Steel Corporation, Corning Glass, and Jones and Laughlin. It will not be necessary to contact General Electric as they are now conducting their own surveys and will not use our service.

The following organizations should be notified:

Johns Manville Products Corporation
Armstrong Cork Corporation
Otis Elevator Corporation
Grede Foundries
Bucyrus Erie
Rochester Gas and Electric
Mutual Chemical Corporation
Universal Foundry
Four Wheel Drive
Harnianfeger Foundry
Rundle Manufacturing Company
Eagle Manufacturing Company
Ladish Company
Evening Bulletin
Columbian Rope Company
Rickok Manufacturing Company
Universal Rundle Corporation

The remaining companies have either used our services very sparingly or the type of service given did not include field surveys.
