Would like to acknowledge the great presentation that W Nonnenmacher and G Warren of the Office Safety Committee presented to us on November 30 th. I learned alot about safety and safety rules that I was not even awared of. Meetings of this calibre do help the fellow worker in trying to do the best job in safety performance both in and out of Monsanto.

I believe that we are our BROTHER'S KEEPERS and it is our responsibilities to correct our fellow co-worker if they are not following safe practices and we must protect those who work around us. This is accomplished by abiding by the Four Basic Requirements:

1. Knowledge
2. Thought
3. Awareness
4. Application
