

Interoffice Communication

To : A. H. Sather
From : J. V. Uptain
Date : March 18, 1983
Subject : SUMMARY OF CHEMICAL EXPOSURE MONITORING - 1982 (REVISED)

The results of 1982 chemical exposure sampling are summarized in Table I (attached). Dosimetry results involving VCM, lead, and total particulates are further detailed in Tables I, III, and IV, respectively.

A handwritten signature in dark ink, appearing to read "Gerald Uptain", written over the printed name.

Gerald Uptain
