Subject: Shanghai Health Study - API Executive Board Meeting in
June

Nela,

The Benzene Health Research Consortium will be going to the API Executive Board Meeting in June requesting "guidance" on the \$6.3M budget gap for the Shanghai Health Study. A briefing document on this subject was included in the agenda document for the March meeting. There is an expectation that the board will make a decision as to API providing some funding or "safety net" funding for the project at the June meeting. Both you and Rob Routs have been briefed on the study. My question is "Who will be attending for Shell at the June meeting? Does that person need to be briefed?" If so, would you be so kind as to assist in arranging a time with the appropriate person? The Consortium will soon be mailing to the API Executive Board members the June agenda briefing document and an addendum. I would be happy to address any questions.

Regards,
Patsy
