Dear John:

As you can see from the enclosed material, Transformer Service Inc. has invited a CMA representative to speak at their October 20-21 seminar. I spoke to Dr. Burgess and it was his feeling that the subject designated for CMA might be best addressed by Monsanto.

CMA has not committed to speak at the seminar and so the first decision is whether we want to get involved with this production at all. If the answer to that question is yes, then we need to decide by who and how it should be handled.

Please let me know your thoughts on this matter.

Sincerely,

Robert J. Fensterheim
