

CHEMICALS

INTEROFFICE / LAKE CHARLES

TO J. A. Clapperton

DATE October 28, 1974

FROM H. J. Hoenes, Jr. *H.J.H.*

SUBJECT Chlorinated Hydrocarbons
Monitoring

Reference: My Memo 10/21/74

My memo of last week listed the coding system to be used to identify respiratory equipment on the weekly summary sheets to you. Subsequently, it was pointed out that personnel occasionally use their pocket respirators for which no provision was made in our original list. The code list has now been expanded to include this.

- (N) - No Respiratory Protection
- (C) - Custom Comfo Mask
- (A) - Airline Mask
- (S) - Scott Air-Pak
- (R) - Pocket Respirator
