Ms. Marilyn Horst
Union Carbide Corp.
P.O. Box 186
Port Lavaca, TX 77979

RE: Asbestos abatement; Polypropylene bulk storage area
roofing material.

Dear Ms. Horst,

Gilman Insulation Co., Inc. submits a price of \$23,500.00 to
perform the above referenced project.

This bid is based on, but not limited, the following
considerations:

- * All layers of roofing material and roof flashing will be
disposed of as asbestos containing material (ACM).
- * Union Carbide will provide double lined "Gaylord" boxes
for disposal of ACM as well as transportation of boxes to
the disposal site.
- * Personnel air monitoring will be performed by Gilman.
- * Area air monitoring will be performed by Union Carbide.
- * Potable water and electricity will be provided by Union
Carbide.
- * Time of completion is estimated at 8 to 12 work days based
on a work week of 4 each 10 hour days.
- * Decontamination facilities, abatement equipment, and tools
required will be provided by Gilman.
- * Abatement procedures will be based on "non-friable"
considerations.

Thank you for your invitation for bid submittal. If further
information is needed please call.

Sincerely,

Clifton Langton
