Layouts & Designs

Acoustical Contractors will arrange for their own layouts and detailing for jobs they sell. Architects in some cases may prefer to furnish their own layouts. USG cannot provide this service.

Orders & Correspondence

To avoid delays and errors in servicing your requirements, please be sure all of the following information is shown on your orders:

1. Name and location of job (important for future identification)
2. Material (ACOUSTONE*"F" or MOTIF'D* ACOUSTONE).
3. Number of pieces and number of sq.ft. (Only MOTIF'D* ACOUSTONE shipped in part cartons.)
4. Thickness and size.
5. Color
6. Design (if MOTIF'D*).
7. Square or bevel type edge.
8. Type of kerfing required.
9. RR delivery at destination.
10. For 12"x24" ACOUSTONE* specify 'plain' or 'center' scored.

See USG Acoustical Contractors' manual on the use, proper methods of erection and limitations of the following materials.

Order direct from Manufacturer:

PRODUCT DESCRIPTION -
PERFORATED ASBESTOS BOARD

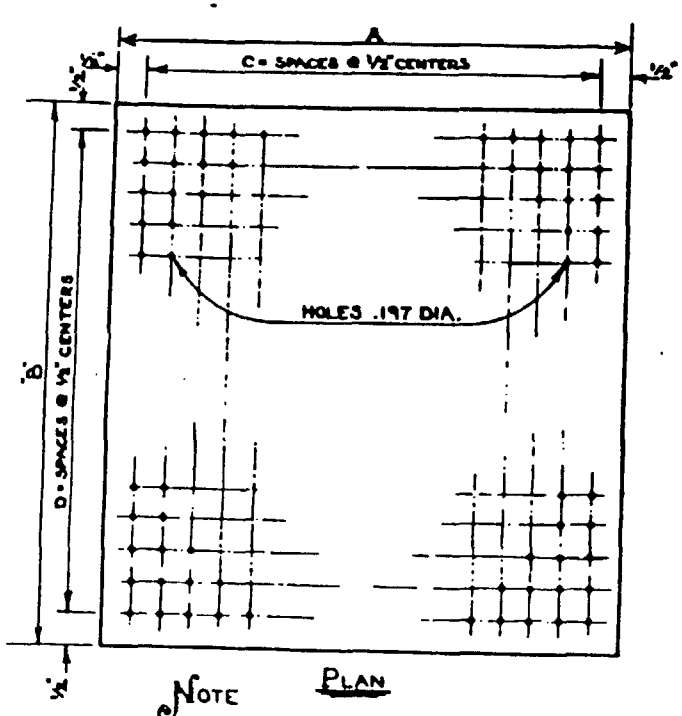

I. USE
3/16" Asbestos Board, cut to size, perforated and used as a finish wall or ceiling material in conjunction with a sound absorbing material (mineral wool blankets or pads) for acoustical treatment.

II. COLOR
Furnished in natural grey only. Not painted.

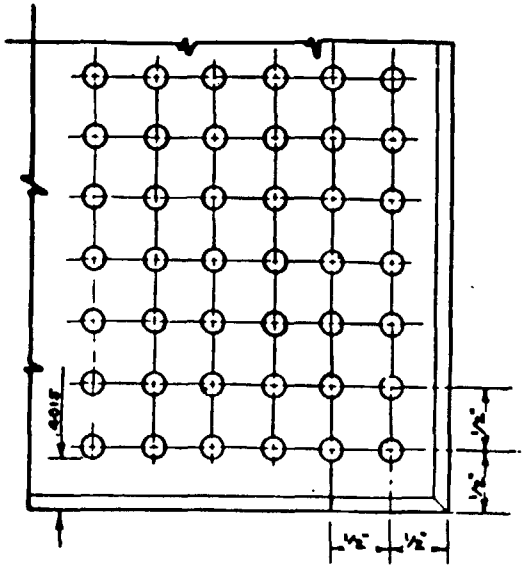

III. TYPES AND SIZES
The type of spacing in Drawing No. 843-1-2 shows a distance of 1/2" from the edge of the unit to the centerline of the first row of holes. This spacing gives a strong edge and should be promoted on all sales.
