

1 asked them to identify their manufacturing facilities
2 and Owens-Illinois stated:

3 This defendant's manufacturing plants were
4 located in Berlin, New Jersey, in Sayreville, New
5 Jersey. The Berlin plant was in operation from
6 approximately 1943 until on or about April 30, 1958.

7 The Sayreville plant was in operation from
8 February 1948 until about April 30, 1953.

9 In response to our interrogatory number 8
10 when we asked about asbestos-containing products,
11 Owens-Illinois stated in response to the question
12 about the brand name, it is called Kaylo.

13 And in response to the composition of the
14 product, Owens-Illinois stated:

15 Its investigation as to the composition of
16 each such product is continuing, although defendant
17 now believes that its asbestos-containing products
18 were hydrous calcium silicates containing between 13
19 percent and 25 percent asbestos.

20 Chrysotile asbestos was the primary type
21 apparently used. Amosite was used to a lesser
