Do you know if he was actually present at the next surgery?

A I doubt it very much, but I don't recall.

Q Did you ask -- since you had never had a patient with mesothelioma before, did you ask Dr. Jones what that was?

A What what was?

Q What mesothelioma was.

A I don't specifically recall that. He gave me the diagnosis of a metastatic adenocarcinoma. And in his footnote it says, on the off chance that this represents mesothelioma, I would wait until he confirmed that or counsel with an additional pathologist.

Q Do you have any recollection of discussing a mesothelioma and what it was with Dr. Jones?

A I don't have any specific recollection. You are asking me to go back 16 years.

Q I understand.

A I don't recall. But it has been my practice to talk with my cytology person or my pathologist when
