Mr. D. E. Roush
Engineering Specialist
Functional Fluids
Monsanto Company
800 N. Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Mr. Roush:

On February 6, 1969, a sample of our Therminol FR-2 was sent to you. We have not received your test analysis and would appreciate a copy of the analysis.

The department is down for several weeks now for repairs and again at the end of July.

Should it be necessary to make any changes in the Therminol now in use, this is the time to do it.

Yours truly,

M. C. Brucksch
