

1 material is made or where it may be sawed to desired
2 dimensions and also considered from the standpoint of
3 applicators or erectors at the point of use.

4 The second page of the document, we are
5 forwarding to you by mail two samples. One which will
6 represent the material which collects in our dust
7 collecting system, and the other represents material,
8 presumably finer, which has settled from the
9 atmosphere in a finishing room where cutting of the
10 material is done.

11 It is signed by U. E. Bowes, Director of
12 Research. You will also notice that carbon copies are
13 going to Mr. Hirth, who you heard yesterday was the
14 attorney.

15 The next document is offered against Owens-
16 Illinois and Owens-Corning and it is our document,
17 document Number 15, it is from Dr. Leroy U. Gardner
18 M.D., Director of Saranac Labs to Mr. U.E. Bowes,
19 Director of Research, Owens-Illinois Glass Company,
20 Toledo, Ohio, March 12, 1943.

21 Dear Mr. Bowes, thank you very much for your
