Dr. Bert King
Applied Technology Center
P. O. Box 10
North Walnut Road
Kennett Square, Pennsylvania 19348

Dear Bert:

Enclosed is the literature reference section on Diffusional Monitoring that I have put together from a literature search and my own resources. The first reference to this subject is not included - I am working on acquiring another copy. We may wish to have some discussion on what references, specifically, should be included. You may well be able to add to the list.

Call me if you have any questions, comments, etc.

Sincerely,

Paul
