---

Dear Members of the European Commission,

I would like to draw your attention to the subject of SF6, which is the most potent greenhouse gas in the world, widely used in the power grid.

In the course of the revision of the EU F-Gas Regulation, we ask for your ambition to strictly phase out this climate pollutant.

Please find attached a letter signed by [REDACTED], [REDACTED] of Deutsche Umwelthilfe e.V., calling for a ban of SF6 from our future energy supply; which was send out this morning to the leaders of the European Commission and DG Climate Action.

Thank you for your time.

Yours sincerely,

[REDACTED] | [REDACTED] Fluorinated Greenhouse Gases
