125 North Street
New York, New York 10013

Gentlemen:

As requested by Mr. Robert F. Siskin, Commissioner, Department of Air Resources, we are submitting data on our Fire-Kote IV (formulated without asbestos) or asbestos sprayed fireproofing.

Attached you will find:

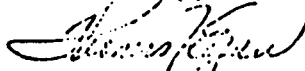

- (1) Letter from Arthur D. Little, Inc., dated October 6, 1970, relating to analysis of the EK-IV product.
- (2) Letter from Georgia-Pacific Corp., dated December 2, 1970, noting chemical properties and research comments on its toxic properties.

The material has been tested and approved by the Underwriters' Laboratories, Inc., and submittals have been made to various agencies of New York City for approval.

Assuming that you may have comments or requests for further data, I am requesting that our Messrs. John Ottinger and William Rogers contact you and request an appointment to discuss all details in person.

If, however, in the interim you need anything, please contact us at once.

Yours truly,

Thomas F. Siskin - Manager
Fireproofing Products
