October 3, 1933.

To Members Lead Industries Association:

Dr. Frederick L. Hoffman, Consulting Statistician of the Prudential Insurance Company of America, who has long had a deep interest in the general subject of lead poisoning, has recently published a booklet entitled, "Lead-Poisoning Legislation and Statistics" which contains many items which should be of interest to our membership as lead poisoning is of great importance to our industries.

Accordingly, I take pleasure in enclosing a copy for your information.

Very truly yours,

Secretary.
