R. H. MUNCH "LETTER" FOR PUBLICATION IN SCIENCE

H. S. Bergen - B2SL
R. A. Munch - T1B
W. B. Papageorge B2NX
J. F. Stapleton - B2SA

W. R. Richard - T3A

Dr. Munch's proposed "Letter" on PCB's would put some technical sense into print on the subject of persistence of "PCB" in the environment. In this regard, I think publication is very appropriate.

The proposed publication should be run through the regular clearance channel via Ed John.

C. W. Roos
