Dear Bernadette:

Enclosed, per your request, is a Material Safety Data Sheet for Vista Chemical Company ALFOL 4 (Butanol). You also requested a MSDS for Ethylidene Chloride. Vista does not manufacture such a product.

Please feel free to call if you have any questions regarding the above.

Sincerely,

Thomas G. Grumbles, C.I.H.
Director, Industrial Hygiene

SUBJ: SUMMARY OF SHIPPING TRANSFER AND STORAGE MANUAL REVIEW
MEETING OF 8/16

VISTA

The ST&S manual was reviewed to determine updating and revisions needed for Vista use. Additions in terms of intended use of the manual and reference needs indicated from our collective experience with questions most often asked. Following are the action items decided on during the meeting.

1. Discussions will be held with Supply and Transportation to get review and input concerning manual content. (TGG, DLW)
2. A list of proper shipping descriptions for all products (not just hazardous) will be obtained. The inclusion of these descriptions in the manual will be evaluated. (TGG)
3. The Chemtrec and Emergency Response section will be rewritten. (TGG)
4. Organization of the manual will be revised as follows:
 - a. Review product groupings. (DTP)
 - b. Flag the hazardous materials (DOT defines) in the data table section, and refer the reader to Hazardous material index. (DTP, TGG)
 - c. Remove the toxicity and first aid information. Refer reader to MSDS.
 - d. Review and evaluate best method to convey waste disposal information. (TGG)
 - e. Add CAS number to product data in manual. (DTP)
5. Review and revise Hazardous Material Section. (TGG)
6. Obtain manual binders. (DLW)
7. Review materials of construction and other storage and handling recommendations. (DLW)
8. Develop manual distribution list and control procedure. (TGG, DLW)
