Ethyl Gasoline Corporation
Chrysler Building
405 Lexington Avenue,
New York City, N.Y.

Attention: Mr. A. E. Mittnacht:

Dear Sir:

Mr. [REDACTED] of 1708 North 13th Street was
in my office again today relative to the condition he is
now in.

He is slowly and surely just being eaten up with
this poisoning. His hands and feet have atrophied to such
an extent that he is unable to do anything. He tried to
get a job but cannot do so because of his condition. He
has to have his hands and feet bandaged three or four times
a day.

If in any way you can help him it look to me like
it would only be just and right for you to take care of this
man in the condition he is in.

Yours very respectfully,

Samuel M. Emison (sd.)
