Dear Peggy et al:

As you know, our meeting with you tomorrow has been moved and consolidated with other offices to Wednesday, April 9 from 11am-12:30pm in EPA North (Room 4045). Attached are copies of our revised consolidated slides we plan to use on Wednesday, as well as an analysis of how our rules of greatest concern (including air rules) violate the principles that President Trump established for rescinding unlawful regulations under Executive Order 14219 and other EOs.

We have a strong showing of about 30 attendees who have expertise in how pulp, paper and wood products mills are affected by regulation.

We look forward to seeing you. If you have any questions, please let us know.

Thank you,

Paul

Subject: Materials for AF&PA Meeting with EPA/OW Wed, April 9, 10am

Dear Peggy:

Our members are very much looking forward to meeting with you and the EPA Office of Water team on Wednesday, April 9 at 10am in EPA North, Room 3530. We have a strong showing of over two dozen attendees who have expertise in how pulp, paper and wood products mills are affected by regulation.

Attached are copies of our slides we plan to use on Wednesday, as well as an analysis of how our rules of greatest concern (including four water rules) violate the principles that President Trump established for rescinding unlawful regulations under Executive Order 14219 and other EOs. As you will see, our slides discuss our top water regulatory priorities, including the WA HHWQC Rule, a related Biden EPA Region 10 midnight Approval Rule, the Tribal Reserved Rights Rule, the SDWA PFAS MCL, and the draft risk assessment for biosolids.

Lynsey: If there will be other EPA attendees at the meeting, I would appreciate it if you could forward these materials to them.

If you have any questions in the meanwhile, please let us know.

We are grateful for the opportunity to meet with you.

Best regards,

Paul
