RE: JOHN TYLER vs. FIBERGLASS ENGINEERING, et. al
CASE NUMBER 67 LB 36087

Gentlemen:

This will acknowledge receipt of Mr. Gebler's letter dated March 16, 1967, which requests joinder of additional employers, pursuant to information received from the Department of Health, Education and Welfare. Pursuant to this request, an Order Joining Party Defendants is concurrently being issued, and a copy of same accompanies this letter.

Mr. Gebler further indicates that inquiry is being made with the California Inspection Rating Bureau, to ascertain the carriers for the employers named.

Under these circumstances, the file is not in a condition to be tried on its present hearing date of April 6, 1967, inasmuch as the parties have not been properly joined pursuant to the Rules of Practice and Procedure. Therefore, this letter constitutes notice to the parties that the matter is ORDERED OFF CALENDAR, to be re-set at the request of any party of interest.

The matter will only be re-set when the file is determined by the trial Referee to be in a trialable condition. This state is defined as follows:

> The filing of an amended application, setting forth the total period of exposure, the individual periods of exposure identified with each employer, and the periods of coverage of each employer with the various insurance carriers for such risk.

When the amended Application is furnished us, in that condition, with sufficient copies to serve upon all parties, the matter will then be re-set for hearing and trial on all issues.

It is noted that the applicant had similar employment in this case, as an Asbestos Worker, as in the case of OLLIE W. ROGERS vs. FIBERGLASS ENGINEERING, et. al., Case Number 64 LB 26779. It is recommended that applicant's Counsel review that record to expedite information concerning coverage.

Very truly yours,

BORIS RAYNES
Referee
