The Raybestos Division

of Raybestos - Manhattan, Inc.

Bridgeport, Conn.

Bridgeport, Conn.
December 11, 1936

PLAINTIFF'S EXHIBIT S-5
PERIGAD-Bayonne, N. J.

Mr. G. S. Fabel, President,
Southern Asbestos Co.,
Charlotte, N. C.

My dear Mr. Fabel:

In reply to your letter of the 8th, Mr. Jefferds went to the Hospital yesterday for a slight operation, and I expect he will be out in about ten days, and he will be glad to see you, but before sending your representatives to Charleston, it would be well to telephone the factory to make sure Mr. Jefferds is there.

I note that you say there has been testimony submitted by your employees that the dust removing equipment at our plant at Charleston, prior to 1934, had advantages over the one at Charlotte. I believe this would be very hard to prove by any of our employees as we have no knowledge of the type of equipment you have, and also would have to have information as to the dust microns in the air at both plants at that particular time.

We have been working on a dust removal system at Charleston for a long time and making a great many changes from time to time, always with the idea of improving it. As I told you in New York, I think today we have equipment that is very good.

I am quite certain if you can show that you have been continually improving your plant, or at least working on it with a view of improving it, that you will get considerable credit.

I believe the type of men you would want to interview at Charleston would be Mr. Jefferds, Mr. Heinsohn and Mr. Hughes.

Very truly yours,

SL-G.

President
