Dear Dr. Kehoe:-

Since the letter from your office dated February 9 says you will arrive at Philadelphia at 6.56 a. m., will you please shape your course from there as follows -

Have your breakfast in Broad Street Station Restaurant, and wait in that restaurant for me. I shall meet you there and together we will go to the station from which we then leave for Pottsville at 8.36 a. m. This will get us to Pottsville several hours earlier than would the 10.30, and I am asking my adversary to have [REDACTED] in Pottsville so that you can examine him prior to the hearing.

I shall have with me the material you lent me for use in this case.

I am looking forward with pleasure to spending that day with you.

Because of my illness at home, this letter will be signed by my secretary. I am recovering from the after effects of a badly infected tooth, and expect to be in my office Monday.

Sincerely,

[Handwritten signature]

Dear Dr. Kehoe:-

This will acknowledge your letter of September 29, also the book sent me under separate cover, and which has been received. This book will be returned to you after serving its purpose in this case, and it will not be offered as an exhibit. Should you need it before the hearing, I shall mail it back to you promptly on receipt of notice to that effect. I note that the book is now out of print.

I thank you for your very earnest cooperation, and am sure that it is going to be very helpful to us in the immediate case, and that through these efforts we are going to start a counter attack against these people who would create a new racket of trying to collect on lead poisoning through the handling of gasoline at distributors' pumps.

Yours very truly,
