A '96.

Q '96. Prior to that time had you thought about Mr. Vandergucht back in, let's say, 1985?

A No.

Q Did you think about him in 1990?

A No.

Q All right. So what happened is at the time of all of these procedures, there were notes taken, am I correct, back in 1980, '81?

A That is correct.

Q You used that to refresh your recollection?

A That is true.

Q All right. That is the point I was trying to make.

Doctor, how many patients do you see per day?

A Well --

Q On average, Doctor.

A If it is an office day, I can see as many as 40 or 50. If it is an operating day, I might only see four or five.
