ETHYL GASOLINE CORPORATION

CHRYSLER BUILDING
135 EAST 42ND STREET

NEW YORK April 27, 1932.

INTER-OFFICE
CORRESPONDENCE

Dr. R. A. Kehoe,

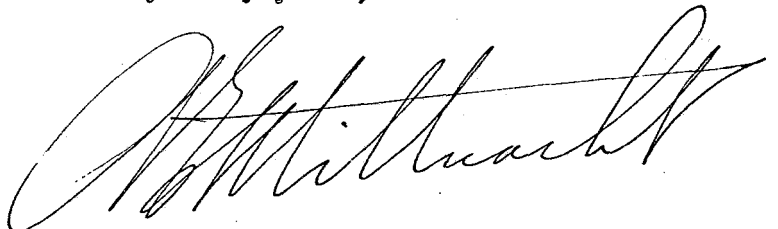

Dear Dr. Kehoe:

Thanks for your letter of April 21st enclosing report from Sieb on the storage of ETHYL fluid by the Aetna Oil Service refinery at Louisville. I am afraid that I will have to accept the full responsibility for this matter and my only excuse is that I didn't think sufficiently about it. This company owed us a substantial sum of money and we didn't want to give them any more credit. They wanted to save the excess freight on small less than carload shipments. A full carload of 44 drums would last them about six months. They suggested warehousing them and we agreed, not giving a thought to your regulations that ETHYL fluid can only be stored at regular mixing installation points.

I am glad it is straightened out and hope that your last sentence is correct; namely, that I will not make the same mistake twice.

Very truly yours,

C:C
