and make a recommendation regarding its acceptability for publication or issues regarding the work that needs to be addressed before it can be considered for publication.

Q Have you done any consulting for the United States Government, Doctor?

A Yes.

Q In what areas, what type?

A I served as a consultant to the United States Attorney General's Office in the early, mid 1980s on occupational lung diseases, particularly asbestos-related diseases.

Q And -- I am sorry.

A I served on a number of committees for the National Institutes of Health on scientific issues, reviewing grants and making recommendations for areas of funding for biomedical research in the areas of lung disease.

Q Have you done any work or consulting for the World Health Organization?

We have heard a little bit about what that
