

December 18, 1950

Mr. W. G. Hazard  
Industrial Relations Division  
Owens-Illinois Glass Company  
Toledo 1, Ohio

Dear Bill:

Your letter of December 12, poses many questions, and I will try to answer them in the order presented.

With regard to the brochure, we believe it advisable to wait until all of our experimental studies with Kayle have been collated and written up in the report to the company. With that report it will be much easier to write something for the brochure.

The final report concerning the investigation on Kayle is being prepared and I hope to finish it as soon as possible. Of recent date it has been delayed because of new problems resulting from the International Situation.

The finances are in good order as your accounting department fulfilled your agreement with the last check for \$1500 issued to us in May of this year. It is now up to us to complete the study, by finishing the final report.

Our paper concerning the investigation of "asbestos" has been in the hands of the publisher for some time. It is to appear in the Archives of Industrial Hygiene and Occupational Medicine. When it was accepted, Professor Philip Drinker informed us that it would appear within five months. We expect it to appear in the near future.

With respect to the visit to Sayreville, it will be possible for Mr. Urban and Mr. Darden to conduct a study of the plant any time after January 18, 1951. Either one or both will bring the necessary equipment. Please set the date as soon as possible.

December 18, 1950

My every good wish to you Bill, Lib, Nick, Sam and David for all good things on Christmas and for the New Year. Should Madge know of this I am sure that she would not want to be forgotten. She joins me in thanking you again for the lovely cocktail glasses the design of which is especially appropriate at this time of the year.

Cordially

Arthur J. Verwald, M.D.  
Director
