Subject: Chemicals regulation (REACH) – updated list of restricted substances / Amendment of Annex XVII REACH and its Appendices regarding CMRs, liquid substances or mixtures and testing methods
Attachments: SEMI Europe Comments on Amendment of Annex XVII REACH_Appendices regarding CMRs_liquid substances_mixtures and testing methods_May 2020.pdf

Dear Mr Saduaskas,

I hope my email finds you well.

SEMI Europe is the European arm of SEMI, the industry association representing more than 2,400 semiconductor and electronics manufacturing companies worldwide, including nearly 300 European headquartered businesses.

On 25th May, we submitted our feedback addressing the above consultation and raised our points. Please find it attached.

We understand this topic is under the responsibility of your Directorate. We would very much welcome the opportunity to discuss our points in conference call. If confirmed, I would like to invite the co-chairs of our PFAS WG / industry representatives.

Looking forward to hearing your feedback.

I remain available for any question.

Kind Regards,

[REDACTED]
