Re — Whirlpool Splash Shield Page 2 of 2

- Sometime in the future we will be able to go to a new Die — thereby eliminating the notching operation.
- The Buyer has told us to move ahead with the Notching Die.
- Please find copy of T.C.A. attached regarding fungicide.
- Prior to the 3/20 production Requirement they will be using old shield with Springs & wires.
- We should be using simpler packaging with these new parts.
