• **Comments:**

Dear Bob,

I have revised the satellite study prices to account for your most recent conversation with Ray Schroeder. Please note that the price is higher primarily because you have increased the numbers of animals on-test, which were not charged for initially, and significantly increased necropsy technician support. The total price of these is \$41,149 which is broken down as follows:

Study 1: Adult rats exposed for one week - \$4,946
Study 2: Weanling rats exposed for one week - \$3,120
Study 3: Adult rats exposed for four weeks - \$13,334
Study 4: Adult rats exposed to [¹³C] for one week - \$19,749

As always, please give me a call at (908) 873-2550, extension 7000, if I can assist further.

Sincerely,

Michael J. Butler, Ph.D.
