Viking Blowers Solve These Design Problems

Interchangeable Parts . . .

many of the important features of Viking Blower Assemblies available in these component parts: New Mark III Bearing is factory-packed but designed to permit the addition of oil; New Quadruped Bracket reduces noise possibilities and strengthens blower housing; New Center-Disc Non-Flexing "B" Wheel is engineered for strength; and Universal Lock-on Feet designed to require a minimum of assembly time.

Interchangeable Blowers . . .

in performance, dimensions, belts, pulleys and air patterns. Viking's "B" Blowers meet A.G.A. requirements as acceptable substitutes for "A" Series Blowers without A.G.A. retesting and without design or specification changes by manufacturers. Also has Universal Blower quick-assembly features.

Viking "B" Blower (with center-plate wheel) 9 in.; 10 in.; 12 in.; 15 in. Full and 3/4 widths.

Possible Positions with Lock-on Feet

Cost Reduction . . .

the Lock-on Feet and multiple motor positions of the Viking Universal Blower Assembly reduce inventory, eliminate dead blower stock, cut lead-time needed in ordering and reduce initial cost. Parts designed to permit quick assembly.

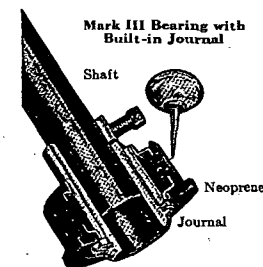

Space Restrictions . . .

New Viking Direct Drive Blowers are available for application where space is at a premium.

6000 Leak-Proof Humidifier . . .

New ovenware glass pan eliminates leaks, corrosion and rust common in old-fashioned humidifiers. Completely automatic unit.

Viking "U" Blower (with end-supported wheel) 9 in.; 11 in.; 13 in. Full and 3/4 widths.

- Lighter loading, longer life
- Machined journal cuts shaft cost
- Interchangeable with conventional Bearings
- Factory-packed, but may be re-oiled
