Robert A. Kehoe, M.D.
University of Cincinnati
Department of Environmental Health
Kettering Laboratory
3223 Eden Ave.
Cincinnati, Ohio 45267

Dear Dr. Kehoe:

As you know I was to present the poster paper "Kehoe Lead Balance Data in Humans: Variability" by myself, Jai-Yeong Tsay and Margaret Middendorf at the recent Society of Toxicology meeting in Atlanta. I want to report that the poster session was presented on March 17 and it went well. I had a convention photographer take a picture of the display and I will send you a copy when I receive the photos.

The art work for the display cost \$615. This expense will come out of the \$3000 you sent me for this purpose.

As you may know, Mitch Zavon is leaving Ethyl. I saw Mitch and Gary TerHaar at the S.O.T. meeting. Apparently Gary and Bernie Sobel will monitor the completion of the analyses of your data. As soon as I hear officially from Ethyl Corporation, I will continue the rest of the analyses. One of the first things I have to do is come to Cincinnati in order to make final comparisons of the original data in your safe with that on the computer tapes. I hope any changes will be minor in nature.

I hope you are well and that Mrs. Kehoe continues to improve.

Best regards,

STANLEY B. GROSS, Ph.D.
Senior Research Scientist
Inhalation Toxicology Department
