DATE: July 16, 1942

DOC#: WRG046

DOCUMENT DESCRIPTION: 1942 Letter to Universal Zonolite Insulation Company from Division of Industrial Hygiene.

July 16, 1912

Mr. John Meyer, Manager
Universal Zenolite Insulation Company
Libby, Montana

Dear Mr. Meyer:

When I visited you last December, you mentioned that you planned to install control equipment in the mill at the mine and that when this work was completed, you would like to have studies made to determine the effectiveness of the equipment.

In order to eliminate unnecessary driving, I would appreciate your notifying me as to the status of this installation. For your convenience, I am enclosing a postcard, which if you will fill out and return to me, will give me the information desired.

Thanking you in advance for this information and hoping to see you in the near future, I am,

Very truly yours,

Herbert T. Malworth, Director
Division of Industrial Hygiene
